CALDERWICK PUMP SYSTEMS LTD

Quarterly Management Report, Q2 FY2026

Document code	FIN-QMR-2026-Q2
Period	1 July 2025 to 30 September 2025
Prepared by	Financial Controller
Approved by	Chief Financial Officer, 20 October 2025
Classification	Confidential

1. Summary

Calderwick Pump Systems Ltd recorded revenue of USD 25.1 million in the second quarter of fiscal year 2026, USD 0.2 million above budget, and EBITDA of USD 3.6 million, on budget. The delayed spare parts orders from the first quarter were delivered in July and August. For the first half year, revenue is USD 48.7 million against a budget of USD 48.9 million.

Test and calibration revenue at Ardmoor was reduced by two rig outages, on TR-3 in August (incident INC-2025-014) and on TR-1 in September (incident INC-2025-021). Lost test revenue is estimated at USD 0.12 million, and repeating one customer endurance test cost USD 41,000.

2. Results against budget

Table 1 - Q2 and first half FY2026 results (USD million)

Line	Q2 actual	Q2 budget	Variance	H1 actual	H1 budget
Revenue	25.1	24.9	+0.2	48.7	48.9
Gross profit	7.7	7.6	+0.1	14.9	14.9
Operating expenses	4.1	4.0	-0.1	8.0	7.9
EBITDA	3.6	3.6	0.0	6.9	7.0
Capital expenditure	1.6	2.1	+0.5	2.7	3.5

3. Revenue by segment

Table 2 - Revenue by segment (USD million)

Segment	Q2 actual	Q2 budget
Industrial pumps	17.8	17.6
Test and calibration services (Ardmoor)	3.2	3.3
Spare parts and service	4.1	4.0
Total	25.1	24.9

4. Supplier service credits

Two service credits are due from Brennock Valve Services Ltd under maintenance contract CON-2024-031 for missed service levels in the quarter. They reduce maintenance costs in the month they are deducted from an invoice.

Table 3 - Service credits

Incident	Missed service level	Credit (USD)	Claimed	Deducted from
INC-2025-014 (TR-3, 14 August 2025)	P1 restore time	925	12 September 2025	Invoice for September 2025 services
INC-2025-021 (TR-1, 9 September 2025)	P2 response and restore times	555	3 October 2025	Invoice for October 2025 services

5. Capital projects

Capital spending of USD 1.6 million in the quarter included the deposit of USD 345,000 for the Fenwick Bay furnace relining (PRJ-14), approved by the Board on 18 September 2025, and the first engineering payments for the Ardmoor rig control upgrade (PRJ-11). Internal Audit found that the PRJ-11 engineering order was split into two purchase orders; see internal audit report IA-2025-04.

6. Outlook

The November furnace shutdown at Fenwick Bay will reduce castings output by about 1,300 tonnes in the third quarter; castings needed by Hollins Cross were built up in advance. Full-year revenue is still expected to reach the budget of USD 98.5 million.
