CALDERWICK PUMP SYSTEMS LTD

Annual Financial Summary, FY2025

Document code	FIN-AFS-2025
Period	1 April 2024 to 31 March 2025
Prepared by	Chief Financial Officer
Approved by	Board of Directors, 15 May 2025
External auditor	Pembury & Vale LLP, unqualified opinion dated 22 May 2025
Classification	Confidential

1. Highlights

Fiscal year 2025 was a record year for Calderwick Pump Systems Ltd. Revenue grew 7% to USD 92.4 million, ahead of the budget of USD 90.0 million, driven by water utility orders and strong demand for test and calibration services at Ardmoor. EBITDA rose to USD 13.1 million (budget USD 12.6 million) and net profit to USD 6.8 million.

All amounts in this summary are in USD million unless stated otherwise. Fiscal year 2025 (FY2025) runs from 1 April 2024 to 31 March 2025; the comparative year FY2024 ran from 1 April 2023 to 31 March 2024.

Table 1 - Key figures

Measure	FY2025	FY2025 budget	FY2024
Revenue	92.4	90.0	86.3
EBITDA	13.1	12.6	11.7
EBITDA margin	14.2%	14.0%	13.6%
Net profit	6.8	6.3	5.9
Capital expenditure	5.2	5.8	4.6
Headcount at year end	612	615	596

2. Income statement

Table 2 - Income statement (USD million)

Line	FY2025	FY2024
Revenue	92.4	86.3
Cost of sales	64.2	60.6
Gross profit	28.2	25.7

Line	FY2025	FY2024
Operating expenses	15.1	14.0
EBITDA	13.1	11.7
Depreciation and amortisation	3.4	3.2
Operating profit (EBIT)	9.7	8.5
Net interest	0.6	0.7
Profit before tax	9.1	7.8
Tax	2.3	1.9
Net profit	6.8	5.9

3. Revenue

3.1 By segment

Table 3 - Revenue by segment (USD million)

Segment	FY2025	FY2024	Change
Industrial pumps	66.1	62.4	+5.9%
Test and calibration services (Ardmoor)	11.8	10.1	+16.8%
Spare parts and service	14.5	13.8	+5.1%
Total	92.4	86.3	+7.1%

Test and calibration services grew fastest. Ardmoor completed 1,710 customer tests in the year, up from 1,480, after the fourth test rig, TR-4, ran on two shifts from September 2024. Spare parts revenue grew in line with the installed base.

3.2 By quarter

Table 4 - Revenue by quarter (USD million)

Quarter	Months	Revenue
Q1	April to June 2024	21.9
Q2	July to September 2024	22.8
Q3	October to December 2024	23.1
Q4	January to March 2025	24.6
Total		92.4

4. Costs

Cost of sales rose 5.9%, less than revenue, so the gross margin improved from 29.8% to 30.5%. Steel castings prices rose about 3% during the year; the effect was offset by higher volumes at Fenwick Bay, which poured 8,950 tonnes of castings, and by productivity gains at Hollins Cross, which assembled 14,380 pumps.

Operating expenses rose 7.9% to USD 15.1 million, mainly from 16 additional employees in engineering and test services and from the new internal audit contract with Fairholm Assurance LLP, which started on 1 January 2025.

5. Capital expenditure

Table 5 - Capital expenditure (USD million)

Category	FY2025	Main items
Plant and machinery	2.9	Assembly line 2 upgrade at Hollins Cross; furnace burner replacement at Fenwick Bay
Test rigs	1.1	TR-4 second shift fit-out; rig hydraulics overhaul
IT and OT systems	0.7	Network segmentation of plant control systems; laptop refresh
Buildings and safety	0.5	Fire suppression at Fenwick Bay; roof repairs
Total	5.2	

6. Cash flow and balance sheet

Table 6 - Cash flow and debt (USD million)

Item	FY2025	FY2024
Cash generated from operations	12.0	10.4
Capital expenditure	-5.2	-4.6
Tax and interest paid	-2.7	-2.5
Dividend paid	-2.0	-1.5
Net change in cash	2.1	1.8
Cash at year end	11.4	9.3
Bank loans at year end	14.6	16.8
Net debt at year end	3.2	7.5

7. People

Table 7 - Headcount by site

Site	Headcount 31 March 2025	Headcount 31 March 2024
Head Office	88	84
Hollins Cross (P1)	241	238
Ardmoor (P2)	62	54
Fenwick Bay (P3)	221	220
Total	612	596

Two lost-time injuries were recorded in the year; see the Health and Safety Annual Report FY2025 for details.

8. Outlook for FY2026

The Board approved the FY2026 budget on 13 March 2025 (Resolution 2025-03): revenue of USD 98.5 million, EBITDA of USD 14.2 million and capital expenditure of USD 7.4 million, including the Ardmoor rig control upgrade, the Hollins Cross assembly line 3 automation and the Fenwick Bay furnace relining. The main risks are steel prices, the availability of test rigs at Ardmoor and the timing of the furnace relining.
