CALDERWICK PUMP SYSTEMS LTD

Quarterly Access Review, Q2 FY2026

Document code	IT-AR-2026-Q2
Review period	Access held on 30 September 2025
Reviewer	Information Security Officer
Review dates	1 to 10 October 2025
Signed off by	Head of IT, 14 October 2025
Classification	Confidential

1. Scope

This review checked all user, privileged and supplier accounts on Calderwick Pump Systems Ltd systems as required by section 4 of the IT Security Policy (IT-SEC-02). Line managers confirmed the access of their teams; the Information Security Officer checked leavers against the HR portal and supplier accounts against the jump host records.

Table 1 - Accounts reviewed

Account type	Accounts reviewed	Accounts removed or changed
User accounts	412	9
Privileged (administrator) accounts	38	5
Supplier accounts (jump host)	11	2

2. Findings

Table 2 - Findings

No.	Finding	Rating	Action	Owner (role)	Status
A1	Three leaver accounts were disabled late. The longest delay was the account of the former IT Service Manager, Paolo Benedetti, who left on 30 June 2025; it was disabled on 8 July 2025.	Medium	Daily leaver report from the HR portal to the service desk	Service Desk Lead	Started 15 October 2025
A2	Two supplier accounts of Brennock Valve Services Ltd had no expiry date, against the 90-day rule.	High	Expiry set; renewal only on the contract owner's request	OT Systems Engineer	Fixed 9 October 2025
A3	Five users had Ledgerline finance administrator rights they no longer need.	Medium	Rights removed	Financial Controller	Fixed 13 October 2025

3. Change of Head of IT

The Head of IT, Dev Malhotra, leaves Calderwick on 31 October 2025. Under Board Resolution 2025-12, the Information Security Officer, Yusuf Karimi, becomes interim Head of IT from 1 November 2025. Because the Information Security Officer cannot review his own access, the Service Desk Lead will review the interim Head of IT's privileged access in the next quarterly review.

4. Next review

The next review covers access held on 31 December 2025 and takes place in January 2026.
