CALDERWICK PUMP SYSTEMS LTD

Audit Committee Report FY2025

Document code	LEG-ACR-2025
Period	1 April 2024 to 31 March 2025
Prepared by	Rafael Okonjo, chair of the Audit Committee
Date	20 May 2025
Classification	Confidential

1. Members and meetings

The Audit Committee of Calderwick Pump Systems Ltd has three non-executive members: Rafael Okonjo (chair), Wen Sorensen and Helena Marsh. It met four times in FY2025. The CFO, the General Counsel and the external and internal auditors attend by invitation.

2. External audit

Pembury & Vale LLP audited the FY2025 accounts and issued an unqualified opinion on 22 May 2025. The audit fee was USD 186,000. The main audit matters were inventory valuation at Fenwick Bay and revenue recognition for multi-stage customer tests at Ardmoor. No material weaknesses were reported.

3. Internal audit

Fairholm Assurance LLP became internal auditor on 1 January 2025 (Resolution 2024-12). The Committee approved the following plan for FY2026.

Table 1 - Internal audit plan FY2026

Report	Subject	Quarter
IA-2025-01	Payroll controls	Q1 FY2026
IA-2025-02	Inventory counts at all plants	Q1 FY2026
IA-2025-03	IT access management	Q2 FY2026
IA-2025-04	Purchase order approvals after the matrix amendment	Q2 FY2026
IA-2025-05	Contract management of High-risk suppliers	Q3 FY2026
IA-2025-06	Project governance of the Fenwick Bay furnace relining (PRJ-14)	Q4 FY2026

4. Whistleblowing

Five reports were received through the Clearline hotline and other channels in FY2025. Two were substantiated: an undeclared gift from a haulage supplier and a breach of forklift rules. Both led to action. No report was about senior management.

5. Risk management

The Committee reviewed the risk register each quarter. It asked management to pay particular attention to dependence on single suppliers for critical services and to the cyber security of plant control systems.
