CALDERWICK PUMP SYSTEMS LTD

Maintenance Services Agreement CON-2024-031

Contract number	CON-2024-031
Supplier	Brennock Valve Services Ltd
Supplier vendor ID	VEN-014
Signed	22 August 2024
Term	1 September 2024 to 31 August 2026
Classification	Confidential

1. Parties

This agreement is made between Calderwick Pump Systems Ltd ("Calderwick") and Brennock Valve Services Ltd ("the Supplier"), registered in Calderwick's vendor master as VEN-014.

2. Term

The agreement starts on 1 September 2024 and ends on 31 August 2026, a term of 24 months. It may be extended only by a written amendment signed by both parties.

3. Scope of services

The Supplier provides preventive and corrective maintenance for the four hydraulic test rigs TR-1, TR-2, TR-3 and TR-4 at Plant P2, Ardmoor. Preventive maintenance follows the schedule agreed each quarter with the Maintenance Lead, Ardmoor. Corrective maintenance covers any fault reported by the Calderwick service desk.

The services include labour, travel, diagnostic equipment and consumables used during a visit. They do not include replacement parts. Calderwick buys replacement parts on separate purchase orders, from the Supplier or from any other supplier.

4. Fees and invoicing

Calderwick pays a fixed monthly fee of USD 18,500, excluding tax, for all services in clause 3. The Supplier invoices monthly in arrears. Invoices are paid 45 days after receipt. Any service credits due under clause 7 are deducted from the next invoice.

5. Contract management

Responsibility	Calderwick	Supplier
Contract owner	Procurement Manager, Plant Services	Account Manager: Declan Murtagh
Technical contact	Maintenance Lead, Ardmoor	Field Service Supervisor
Escalation	Head of Procurement	Operations Director: Rhiannon Pryce

The two contract owners meet once a month to review service performance against Appendix A.

6. Service levels

The Supplier must meet the response and restore times set out in Appendix A. Appendix A also defines the incident priorities, how the times are measured and the service credits that apply when a time is missed.

7. Service credits

When a service level in Appendix A is missed, Calderwick is entitled to the service credit stated there. The Calderwick contract owner claims the credit in writing within 30 days after the end of the month in which the incident occurred. A credit that is not claimed within that period is lost. Service credits are Calderwick's sole financial remedy for missed service levels, except as stated in clause 8.

8. Termination

Either party may end this agreement with 90 days' written notice. Calderwick may end it immediately if the Supplier misses the P1 restore time three or more times in any period of six months.

9. Signatures

Signed for Calderwick by the Head of Procurement and for the Supplier by its Operations Director on 22 August 2024.

Appendix A - Service Levels and Service Credits

Times are clock hours, counted from the moment the Calderwick service desk logs the call to the Supplier. Response means a qualified Supplier engineer is on site at the rig. Restore means the rig is back in service for testing.

Priority	Definition	Response time	Restore time	Service credit for a missed restore time
P1	Rig out of service; test schedule stopped	2 hours	8 hours	5% of the monthly fee
P2	Rig working with reduced capacity or accuracy	4 hours	24 hours	2% of the monthly fee
P3	Minor fault; testing not affected	Next business day	5 business days	0.5% of the monthly fee

A missed response time adds a further credit of 1% of the monthly fee for that incident. Each incident earns at most one restore-time credit and one response-time credit. Total service credits in any month are capped at 15% of the monthly fee.

Appendix B - Supplier Escalation Contacts

Level	Contact	When to use
1	Supplier service desk	All new calls
2	Declan Murtagh, Account Manager	A P1 or P2 call not answered within its response time
3	Rhiannon Pryce, Operations Director	A P1 restore time at risk, or a repeated missed service level
